

Every minute, 12 innocent children die of starvation or malnutrition-related diseases.

Established in 1999, **Kids Against Hunger** is a 501(c)3 nonprofit organization working to package and ship highly nutritious, life-saving meals to starving and malnourished children in developing countries and around the United States. Mobilizing the energy and caring of American children, teens, and adults, the organization's small bags of food contain a rich source of easily digestible protein, carbohydrates, amino acids, and vitamins needed by an undernourished child's body and mind. Relationships with non-governmental organizations around the world allow the packages of food to be distributed to those who need it most, while also benefiting the hungry in the packaging site's community.
